## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 18-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Wager U.S. Pat. No. 4,284,077.

Wagner discloses a device comprising a casing a suction chamber connected to the casing, a piston pump, a passage interconnecting the suction chamber to the volume, and a cutoff valve (see fig. 1 and entire reference).

### ***Response to Arguments***

Applicant's arguments filed 3/10/05 have been fully considered but they are not persuasive.

Wagner clearly discloses and suggest a piston (26) pump wherein a pressure side is provided on one side of the piston and a suction side is provided on the other side of the piston such that the piston rod may be operated to displace the piston within the cylinder to create a state of reduce pressure. Additionally, Wagner discloses a lock (figs. 4-7)

Finally, applicant has not claimed "a piston pump" for creating a state of reduced pressure within the suction chamber and bringing the tissue in contact with the

dispensing means. Applicant merely claims, "the piston within the cylinder to create a volume within the cylinder having a state of reduced pressure and the lock is adapted to lock the piston in place to maintain the state of reduced pressure."

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
